★ **Architecture for Reusable Courseware Authoring and DElivery (ARCADE)**
http://arcade.fmi.uni-sofia.bg:8080/arcade/

Centre of Information Society Technologies, FMI, Sofia University
The ARCADE system is an integrated e-Learning solution. The main goal of the project is to design and develop a general platform for delivery and authoring of web-based courses and tests. The system is based on standards (UML, XML, Java, IMS, IEEE, SCORM).

★ **E-MuniS**

VIRTECH LTD
It is a Best Practice Transfer project funded ★ **by the European Commission under EU Fifth Framework Programme contract IST-2001-33037**. Its goal is to provide opportunities for user-friendly implementation of information technologies achievements in municipal administration working processes and services to citizens. Project municipalities are Sofia, Skopje and Rijeka.

★ **Mall2000 - E-trade Environment for SMEs**
http://we-trade.org

VIRTECH LTD
Mall2000 is a project funded ★ **by the EC INCO Copernicus Programme**. The project partners are from Bulgaria, Germany, Italy, Ireland and Czech Republic. Mall2000 implements an Electronic Commerce environment, providing a set of business-to-business services to small and medium enterprises (SME).

★ **Public Computer and Communications Centers (PC3)**
http://pc3.orbitel.bg/

Academy for Educational Development (AED)
The objective of the PC3 Project is to support the economic and social development in small under-served Bulgarian communities by facilitating their access to the modern information and communications technologies. The PC3 Project selected ten local partners (PC3 operators).
