★ ### VCS e-Travel Market Place
www.virtual-travel-agent.com

The system is based on Intracom's FirstCLASS™ Systems and is a travel product distribution environment of all the pre-defined services available in the market. It is tailored to meet the needs of the Travel and Tourism Industry by offering a wide range of integrated services capable of supporting virtually any type of business transaction between the service Providers (Tour Operators and ASPs), services suppliers (Hotels, Excursions, Car Rental, Tranfers, Cruize lines etc) and the service Retailers (Travel Agents, Consumers). Best practice is presented by demonstrating how innovative solutions are combined to provide B2B e-Business Marketplace solutions allowing the travel industry to work in a collaborative approach, nationally and internationally.

★ ### e-Minder Project
www.eminderproject.com

Electronic co**M**merce leverag**I**ng **N**etwork for **D**eveloping **E**uropean **R**egions is ★ **a European Union project**, with partners from Cyprus, Spain and Poland. Its aim is to increase the level of e-Commerce in the island and bridge the gap between the more and the least developed European Regions. Its specific objectives are:

- To raise awareness both in the SME sector and within the education and training structures about the use of ICT and their application to the field of e-commerce,

- To provide citizens and companies with the required service and support to implement their e-commerce related activities.
